

# CORROSION INSPECTION IN TANKS

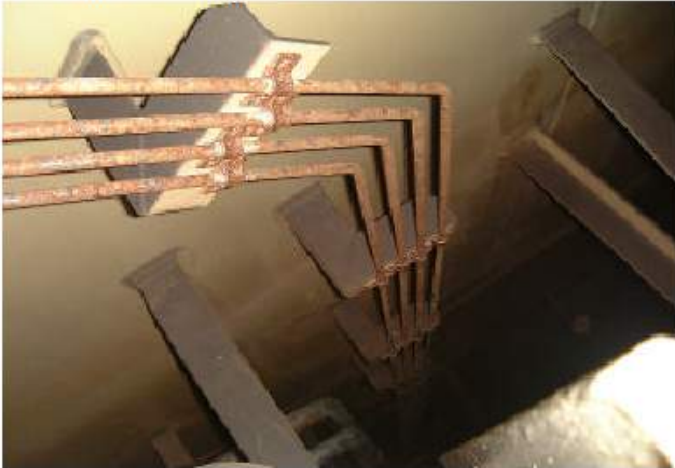

VRC tube in Cargo Tank 1

VRC tube in Cargo Tank 2

VRC tube in Cargo Tank 3

VRC tube in Cargo Tank 4

VRC tube in Ballast Tank 1

VRC tube in Ballast Tank 2

## **Inspection Result:**

- 1. All bare tubing materials consisting of Stainless Steel or Alloys inside cargo tanks must be replaced ASAP without an exception**
- 2. Some bare tubing materials consisting of Stainless Steel or Alloys inside ballast tanks are usable but must be cleaned up. Nonetheless most bare tube materials shall be re-inspected and highly recommended to be replaced with new ones.**
