

Coriolis Mass Flow Meters

For highly accurate measurement performances

Unmatched and unique Omega design Coriolis Mass Flow Meters

The starting point of any kind of best possible vessel performance management

Perfectly designed for reliable and accurate measurements under challenging conditions:

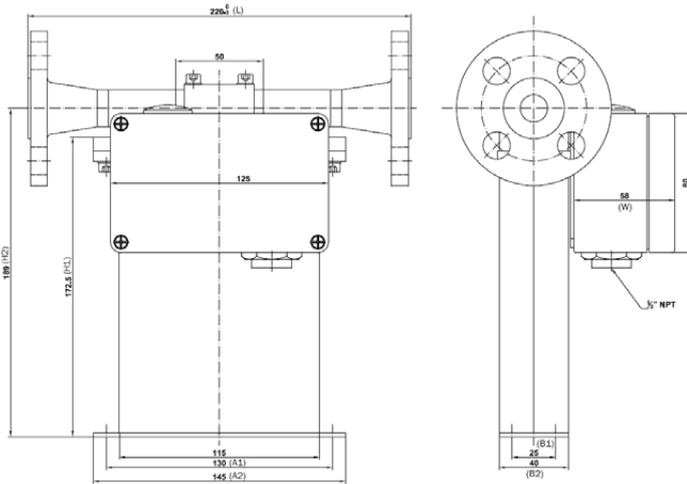

Technical Data

Measuring System	
Measuring Principle	Mass Flow Meter
Application Range	Mass Flow, Volumetric Flow, Density, Temperature
Accuracy	
Measuring Accuracy	± 0.20% of actual measured flow rate ± 0.10% of actual measured flow rate (Premium)
Density Accuracy	± 0.50% of actual measured density ± 0.10% of actual measured density (Premium)
Repeatability	Better 0.05%
Design of Construction	
FP300-FP45MT	Parallel Measuring, Removable Manifold
>FP45MT	Parallel Measuring Loops Seal Less Version
Sensors with integrated or remote transmitter *(integrated transmitter IP65)	Sensors (FP300-FP18XT): -20 °C to 120 °C (-4 °F to 248 °F)
Sensors with remote transmitter only.	Sensors (FP300-FP720T): -45 °C to 210 °C (-49 °F to 410 °F) Sensors (FP300-FP18XT): (Premium) -196 °C to 50 °C (-321 °C to 122 °F)
Power Supply	
FP16/26 Electronics	12 to 28 VDC, 3W
FP27 Electronics	100 to 240 VAC +/- 10% (48 to 62 Hz) 12 to 24 VDC +/- 10%
Outputs/ I/O, Communication	
FP16/26 Electronics	RS 485 (Modbus) only - no discrete outputs / or 4 Digital Outputs (Programmable – Pulse, Double Pulse, Error, Set-Points) + RS 485 / or 4 Digital Outputs (as above) + 1 Analog 4-20 mA (Flow, Dens. or Temperature) + RS485
FP27 Electronics	2*4/20mA, 2*Pulse/Freq, 2*DO, 2*DI, RS485 (Modbus) / or Standard HART - as standard plus HART
Harzardous Area	
FP16/26 Electronics Ingress Protection: IP20	Ex II 3 G Ex nA IIC T4 Gc
FP27 Electronics Ingress Protection: IP20 *(IP54 installed in cabinet)	ATEX approval Ex II(1) G [Ex ia Ga] IIC Use with ATEX sensor Ex II 2G Ex ib IIC T1-T6 Gb (Transmitter installed in safe area only)
Compliance	
Vibration	According Class Specification
EMC	According Class Specification

Process Connections & Dimensions

Parallel measuring tubes with flange connection and removable manifold

FP26 Mass Flow Transmitter

Rack/Panel Mount Multifunction Coriolis Flow Transmitter

Features

- Rack/Panel Mounting
- Operate with Flowpulse sensor in hazardous area
- Selectable unit for Mass, Volume, Density, and Temperature
- Positive, negative and net totalizers for both volume and mass flow
- Two configurable pulse/frequency/status outputs
- Analog output configurable for Mass, Volume, Density or Temperature
- Digital input configurable for zeroing, measurement hold and totalizer operations
- Connectivity to control systems through Modbus RTU
- Simple user interface - Back Lit Colour LCD display and 3 operator buttons with intuitive menu design
- USB connection for quick service & settings
- Built-in Advanced Diagnostic Set - simple publication of measurement status and/or colour changing display
- Password protected set up
- Upload and download of configuration files
- Power consumption less than 5 W
- Optional lockable front cover

Applications

- General process flow measurement
- Feed stocks and transfers
- OEM applications

Benefits

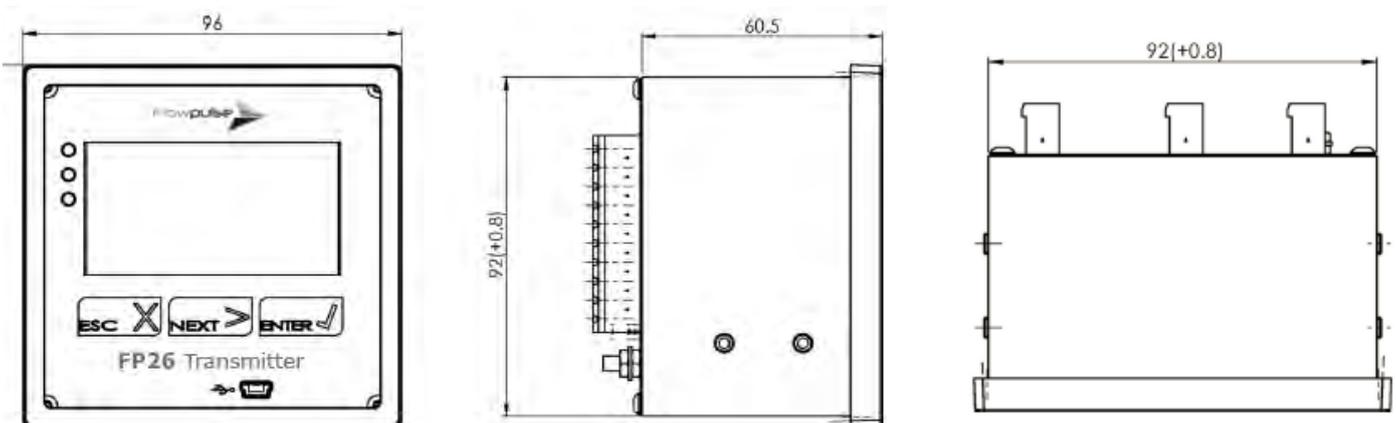

- More insight into process and measurement conditions with advanced diagnostics
- Diagnostics for proactive maintenance
- Works with all Flowpulse flow sensors
- Fast and easy set up using Flowpulse software
- Remote electronics provides installation flexibility

General Specifications

Housing	IEC 61554 Panel mount housing Lockable front cover and DIN rail mount options available
Enclosure Rating	IP20 (front). Optional IP54 front cover, lockable
Ambient Temperature	-20 °C to +60 °C (-4 °F to +140 °F)
Dimensions	96mm x 96mm x 61/75mm
Display	High contrast backlit LCD. Screen changes colour to indicate warning or error.
Weight	0.45 kg / 1lb
Operation	3 x front panel operator buttons for all menu navigation and settings
Sensor Connection	Pluggable screw terminal strip Cable available in lengths of up to 100m for connection to remote sensor
Analog Outputs	1 x 4-20mA output (active / passive) compliant to NAMUR NE-43
Pulse/Frequency/Status Outputs	2 x configurable outputs (IEC 60946), max 10 kHz.
Digital Outputs	1 x configurable control inputs (to IEC 60946)
Power Supply	12-24 VDC +/- 10%, 4 W
Digital Data Communications	Modbus RTU (RS 485). Mini-USB for PC connection.
Hazardous Area Approvals	ATEX/IEC: Ex II (1)G [Ex ia Ga] IIC - for Ex i meter in zone 0,1 (transmitter in ordinary area). ATEX: Ex II 3G Ex nA IIC T4 Gc - for zone 2 (transmitter must be mounted in an IP54 cabinet - please consult factory)

Dimensions

FP27 Mass Flow Transmitter

Rack/Panel Mount Multifunction Coriolis Flow Transmitter

Features

- Rack/Panel Mounting
- Operate with Flowpulse sensor in hazardous area
- Selectable unit for Mass, Volume, Density, and Temperature
- Positive, negative and net totalizers for both volume and mass flow
- Two configurable pulse/frequency/status outputs - Double pulse available
- Two configurable analog outputs
- Two configurable digital status outputs
- Two configurable digital inputs
- Analog input for pressure or density
- Advanced functions: Net Oil, Baume/Brix, % Solids, Concentration, Standard Density and Standard Volume (API MPMS Ch. 11)
- Connectivity to control systems through Modbus RTU and HART
- Custody transfer version without lockout switch and seal point
- Simple user interface - Back lit colour LCD display and 3 operator buttons with intuitive menu design
- USB connection for quick service & settings
- Built-in Advanced Diagnostic Set - simple publication of measurement status and/or colour changing display
- Password protected set up
- Upload and download of configuration files
- Power consumption less than 5 W
- Optional lockable front cover

Applications

- General process flow measurement
- Feed stocks and transfers
- OEM applications

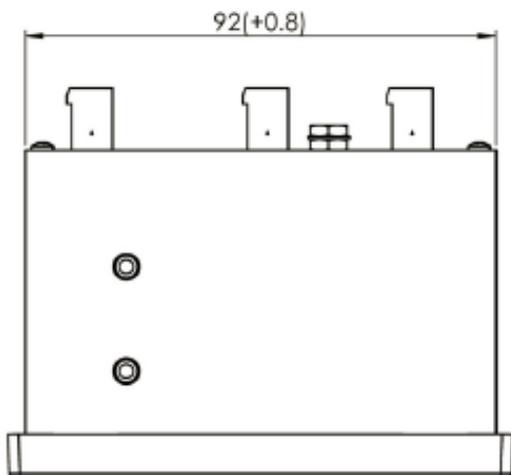

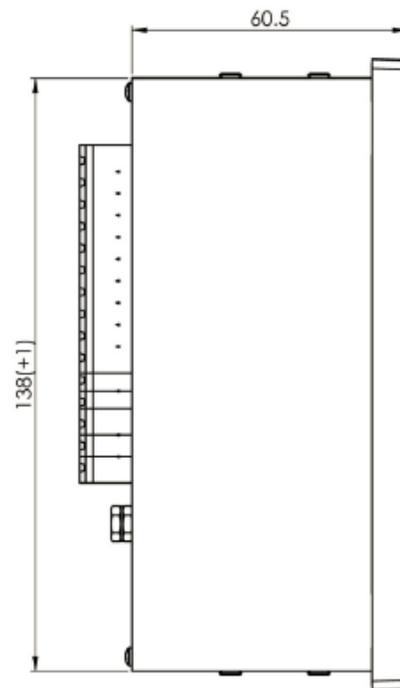

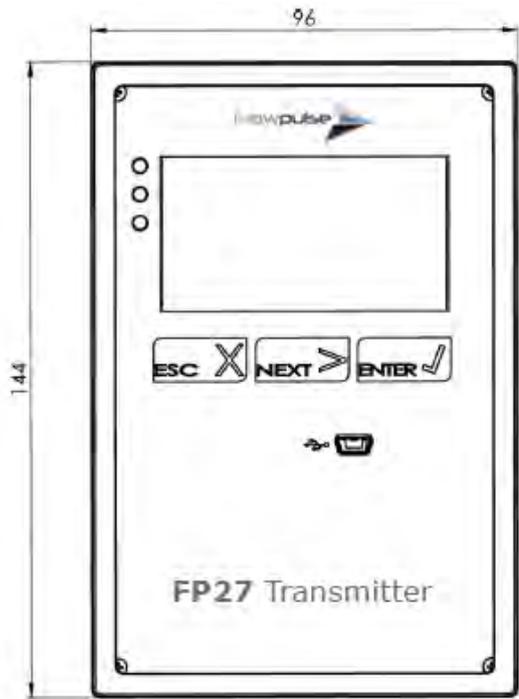

Benefits

- More insight into process and measurement conditions with advanced diagnostic
- Diagnostics for proactive maintenance
- Works with all Flowpulse flow sensors
- Fast and easy set up using Flowpulse software
- Remote electronics provides installation flexibility

General Specifications

Housing	IEC 61554 Panel mount housing. Optional lockable front cover.
Enclosure Rating	IP20 (front). Optional IP54 front cover, lockable front cover
Ambient Temperature	-20 °C to +60 °C (-4 °F to +140 °F)
Dimensions	96mm x 144mm x 61/75mm
Display	High contrast backlit LCD. Screen changes colour to indicate warning or error.
Weight	0.55 kg / 1lb
Operation	3 x front panel operator buttons for all menu navigation and settings
Sensor Connection	Pluggable screw terminal strip Cable available in lengths of up to 100m for connection to remote sensor
Analog Outputs	2 x 4-20mA output (active / passive) compliant to NAMUR NE-43
Digital Outputs	2 x configurable status inputs (to IEC 60946)
Pulse/Frequency Outputs	2 x configurable pulse/frequency outputs (IEC 60946), max 10 kHz.
Digital Inputs	2 x configurable control inputs (to IEC 60946)
Analog Input	1 x 4 - 20mA analog input for two wire pressure or density sensor
Power Supply	100-240 VAC +/- 10% (48 to 62 Hz), 5W or 12-24 VDC +/- 10%, 4W
Digital Data Communications	Modbus RTU (RS 485). Mini-USB for PC connection. HART over analog output.
Hazardous Area Approvals	ATEX/IEC: Ex II (1)G [Ex ia Ga] IIC - for Ex i meter in zone 0,1 (transmitter in ordinary area). ATEX: Ex II 3G Ex nA IIC T4 Gc - for meter in zone 2 (transmitter must be mounted in an IP54 cabinet - please consult factory)

Dimensions

FP16 Mass Flow Transmitter

Compact Multifunction Coriolis Flow Meter Transmitter

Features

- Extreme compact footprint - ideal for embedding into small systems and machines
- Mount remotely or in compact form
- Low installation cost
- High accuracy measurement through state-of-the-art signal processing
- Fully featured MODBUS communication with fast update rate
- 4-20 mA output
- Dual pulse outputs up to 10 kHz
- Low power consumption (<3W)
- DIN Rail mounting for easy integration in control cabinets and closures
- Front panel LED's give real time measurement status
- Flowpulse software for simple configuration, set up, trending, data logging and diagnostics
- Multifunction - Mass, Volume, Density and Temperature Measurement

Applications

Typical applications include:

- Pump control for blending/mixing of liquids
- Fast filling of liquids and gases
- Additive Dosing
- General flow control
- Dispensing

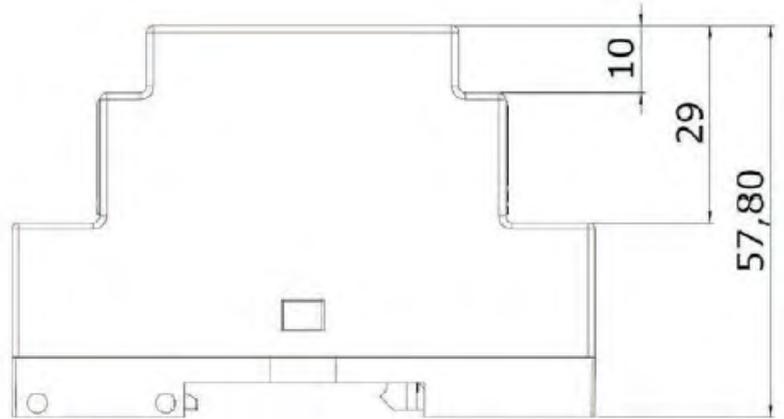

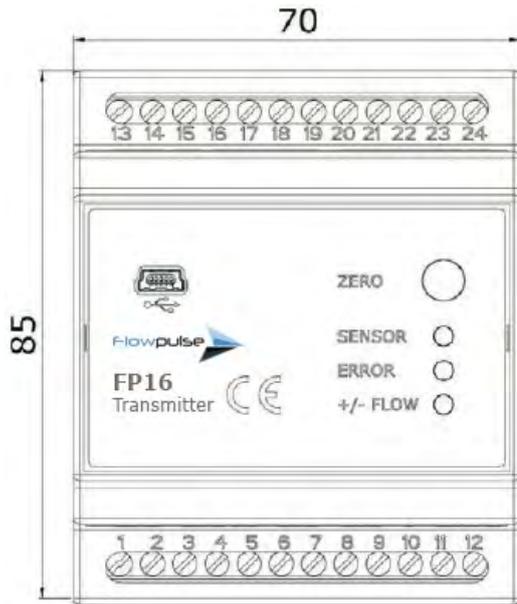

Benefits

- USB connection for configuration and maintenance
- Easy access electrical and signal terminals
- Supports multi-drop MODBUS-over-RS485 for multiple unit communication
- Connects and operates with all Flowpulse Mass Flow Sensors
- Compact mount version for cost and time effective installation
- Version for installation in ATEX Zone 2 available

General Specifications

Measurement	Mass flow, volumetric flow, density, temperature
Totalizers	Forward, reverse, net (mass flow and volumetric flow)
Units	Configurable in both ANSI and metric units
Enclosure Type	IP20/IP66 as compact version
Enclosure Material	Plastic (PC/PPO)
Electrical Connections	12 dedicated terminals for mass flow sensor connection (remote mont) 12 terminals for power and I/O
Temperature Limits	Operating: 20 to 60 °C / -4 to 140 °F Storage: -40 to 85 °C / -40 to 185 °F
Max. Humidity	95% non-condensing
Vibration	Compliant to: IEC60068-2-6, 60068-2-27, 60068-2-32
Power	12 to 28 VDC, 3W
Communications	One mini USB (type B) service port (galvanically isolated) One MODBUS via RS 485 port (fully isolated, 2 wire connection)
Input	Any Flowpulse mass flow sensor
Outputs	Two user programmable pulse, double pulse, frequency (galvanically isolated) Two user programmable status outputs (galvanically isolated) One user programmable active 4-20 mA
Flowpulse Software	Fully featured configuration and diagnostic software package supplied with each FP16 transmitter. Functions include: Configuration, diagnostics, data logging and data trending plus transmitter maintenance functions such as firmware update and tag number storage
Hazardous Area	ATEX rating Zone 2: Ex II 3 G Ex nA IIC T4 Gc - only as compact version
Weight	0.19 kg / 0.45 lb
Packing	Packing size (H x W x D): 70 x 120 x 95 mm / 2.75 x 4.72 x 3.74 inch Total weight incl. packing: 0.23 kg / 0.52 lb
